# Ibrahim SAVADOGO

## Data Scientist/analyst

Data-oriented engineer with strong experience in Python, SQL, and backend development. Skilled in data processing, automation, dashboard development, and geospatial analysis. Experienced in Linux environments and high-performance computing. Passionate about leveraging data to support decision-making and operational efficiency.

## Expériences professionnelles

### Technical Skills

Ouaga Centre de Competence

*01/2024 – 07/2025* *Ouagadougou*

**Data Engineering & Data Analysis**

- Design and implementation of data processing workflows
- Data cleaning, transformation, and integration
- Strong experience with relational databases and SQL queries
- Dashboard development and KPI monitoring using **Power BI**
- Advanced use of **Excel** for data organization, analysis, and reporting
- Data visualization and interactive reporting

**Software Development & Programming**

- Full-stack web development: Backend with **Django**, frontend with **HTML, CSS, Bootstrap**
- Mobile application development with **Flutter**
- Programming languages: **Python, SQL**
- Development of automation scripts for data processing

**Geospatial Data & Analysis**

- Experience with Shapefile and raster data formats
- Geospatial data processing using **Google Earth Engine**
- Spatial data analysis and environmental data handling

**Systems & Infrastructure**

- High-Performance Computing (HPC) under a Linux environment
- IoT systems development using **Arduino and ESP32**
- Basic system integration concepts and API usage

### Intern

WASCAL

*01/2025 – 07/2025* *Burkina Faso*

- Designed and implemented an IoT-based embedded system for real-time environmental data collection
- Built a mobile monitoring application using Flutter
- Developed Python scripts for climate data cleaning, transformation, and analysis
- Structured and managed datasets using SQL databases
- Generated dashboards and data visualizations to support decision-making
- Collaborated with multidisciplinary teams.

## Langues

**Français**

- **French:** Native / Fluent (spoken and written)

**Anglais**

- **English:** Professional working proficiency (spoken and written)

## Key Strengths

**Teamwork & Collaboration Skills**

- Effective collaboration with development team members to achieve shared goals
- Clear and constructive communication
- Professional conflict resolution skills
- Strong ability to work in a team environment

**Adaptability & Continuous Learning**

- Rapidly adapts to new technologies, tools, and evolving industry standards
- Strong curiosity and commitment to continuous learning of new skills
- Flexible and responsive to changing project needs and priorities
- Embraces technological change to improve workflows and project outcomes

## Expériences professionnelles

**Workshop**
AIMS/AI 4climate and weather forcast
*11/2024* *Senegal*

- Worked closely with project documentation teams to ensure accurate and actionable climate data reporting
- Participated in AI and Machine Learning training programs focused on climate change analysis and weather forecasting (MS/AI 4Climate)
- Applied ML concepts to climate datasets for predictive modeling and environmental data insights
- Supported data preprocessing, cleaning, and visualization for project deliverables

## Diplômes et Formations

**Master's Degree in Computer Science**
Universite Joseph KI-ZERBO
*01/2023 – 07/2025* *Burkina Faso*

- Conducted final year thesis on embedded system technologies
- Completed web development projects
- Participated in team-based software development projects
- Strong data analysis skills
- Generated predictive climate variables such as temperature, precipitation, and heatwaves
- Evaluated the economic impacts of climate change

**Licence en Physique Chimie**
Universite Felixh Houphouet Boigny de Cocody
*01/2018 – 12/2020* *Ivory Coast*

## Réalisations et Distinctions

**Lien Github** · https://github.com/ibrahimsava
my projects

## Informatique

**Programming languages**

- Python
- C++
- dart
- R
- javascript

## Informatique

**Frameworks**

- Django
- Flutter
